

We received many comments on a range of topics from the January consultation exercise and these have been very helpful to us in progressing our design proposals. We would be grateful if you could now take a few minutes to let us have your views on the draft development proposals, which we will develop and refine over the coming weeks.

The comments previously made included some key topics which you may find useful as prompts:

Green Space and Nature ■ **Sustainability** ■ **Pedestrianising Saxonvale (the street)** ■ **Non-residential uses** ■ **Mix of new Homes**
■ **Character and Identity** ■ **access and Parking** ■ **Streets and Spaces for People / Public Realm**
